PROFILE

Farsi–English medical interpreter with C2-level English, 2+ years of professional VRI and OPI delivery, and 15+ years inside Iran's healthcare and medical-device market as a sales leader and board member. Delivered 7,000+ minutes of live clinical interpretation at GLOBO with zero reported communication-related incidents. Native Farsi, practised in HIPAA-compliant handling of patient information, and equally at home in board meetings and exam rooms: clinical precision, commercial fluency, and cultural nuance in one interpreter.
